# 進入子資料庫的頁面

The screenshot shows the old version of the AccessPharmacy website. The header includes the logo and navigation links like Home, Textbooks, Core Curriculum, etc. The main content area is titled "Cases & Care Plans" and features a sidebar with a list of chapters (1-11) and sections (1-8). The main content area displays "Casebook Supporting Content" for "Section 1: Principles of Patient-Focused Therapy", listing chapters 1 through 5 and various appendices. A search bar is located at the top.

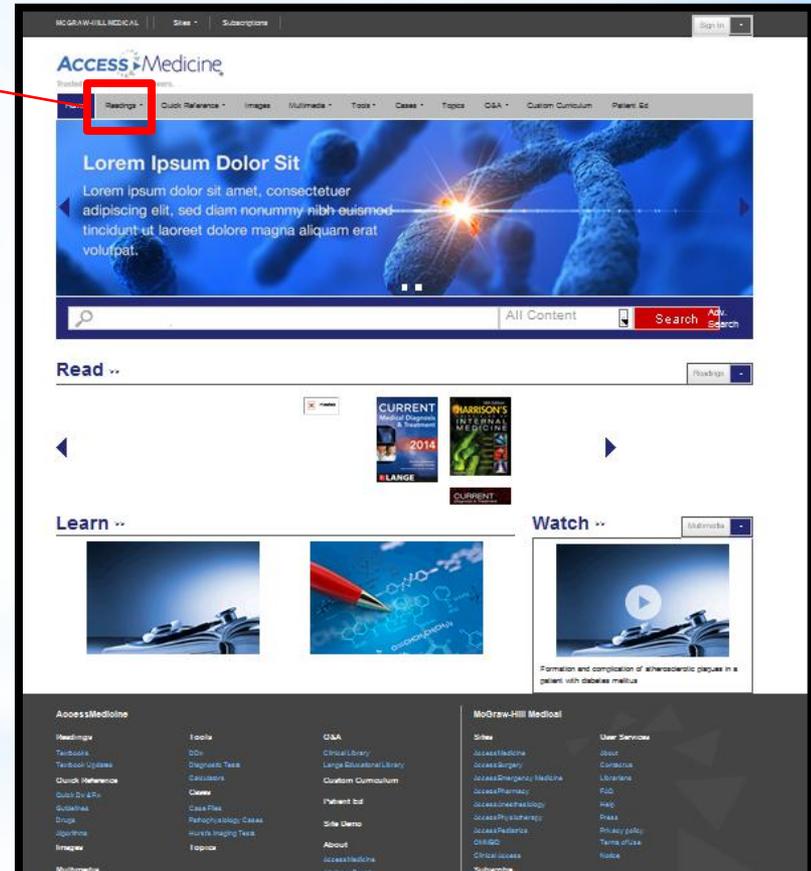

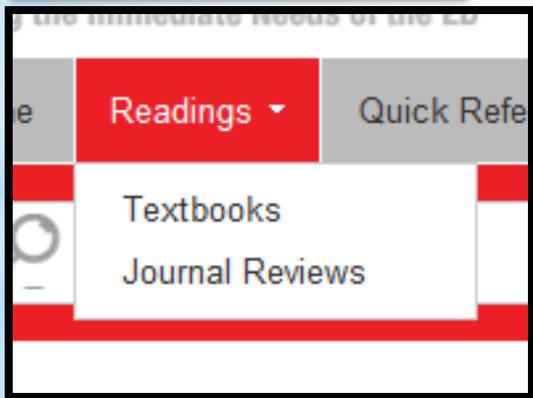

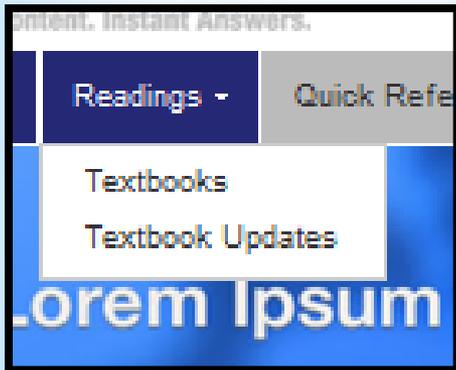

The screenshot shows the new version of the AccessPharmacy website. The header is more modern with a search bar and navigation links. The main content area is titled "Cases" and features a sidebar with "Virtual Cases" and "Pathophysiology Cases". The main content area displays "Pharmacotherapy Casebook and Care Plans" by Terry L. Schwinghammer, PharmD, FCCP, BCPS, Julia M. Koehler, PharmD, FCCP, BCPS. The content is organized into a list of topics, including "Principles of Patient-Focused Therapy", "Chemical Exposure", "Clinical Toxicology: Acetaminophen Toxicity", "Cyanide Exposure", "Geriatrics", "Palliative Care", "Pediatrics", "Cardiovascular Disorders", "Respiratory Disorders", "Neurologic Disorders", "Psychiatric Disorders", "Endocrinologic Disorders", "Women's Health (Gynecologic Disorders)", and "Urologic Disorders". A large blue arrow points from the old interface to the new one, and the text "New Look!" is written in large red letters.

# 進入子資料庫的頁面

The screenshot shows the old website layout. At the top, there is a navigation bar with links for Site Tour, A-Z Index, Librarians, Newsletter, Subscriptions, About, Advisory Board, Contact Us, Help, and Blog. The main header includes the ACCESS Anesthesiology logo and the text 'Pain Management, Critical Care, & Perioperative Medicine'. Below this is a search bar with a 'SEARCH' button and options for 'Disable Autosuggest', 'Advanced Search', and 'About Search'. The main content area is divided into several sections: 'At Your Fingertips' with a 'Quick reference' link; 'Bronchial anatomy' featuring a book cover and a description of Morgan & Mikhail's Clinical Anesthesiology, 5e; 'Antibiotic prophylaxis for invasive procedures' with a table reference; 'Featured Videos' with thumbnails for 'Esophageal Doppler Interpretation' and 'Ultrasound Guided Interscalene Nerve Block'; and 'Core Content' with a grid of book covers and titles like 'Anesthesiology, 2e' and 'Management of the Difficult and Failed Airway, 2e'. A 'NEW on AccessAnesthesiology' section highlights 'November 2013' updates, including multimedia collections, procedural videos, and pediatric anesthesia lectures. A large blue arrow points from this section towards the new website screenshot.

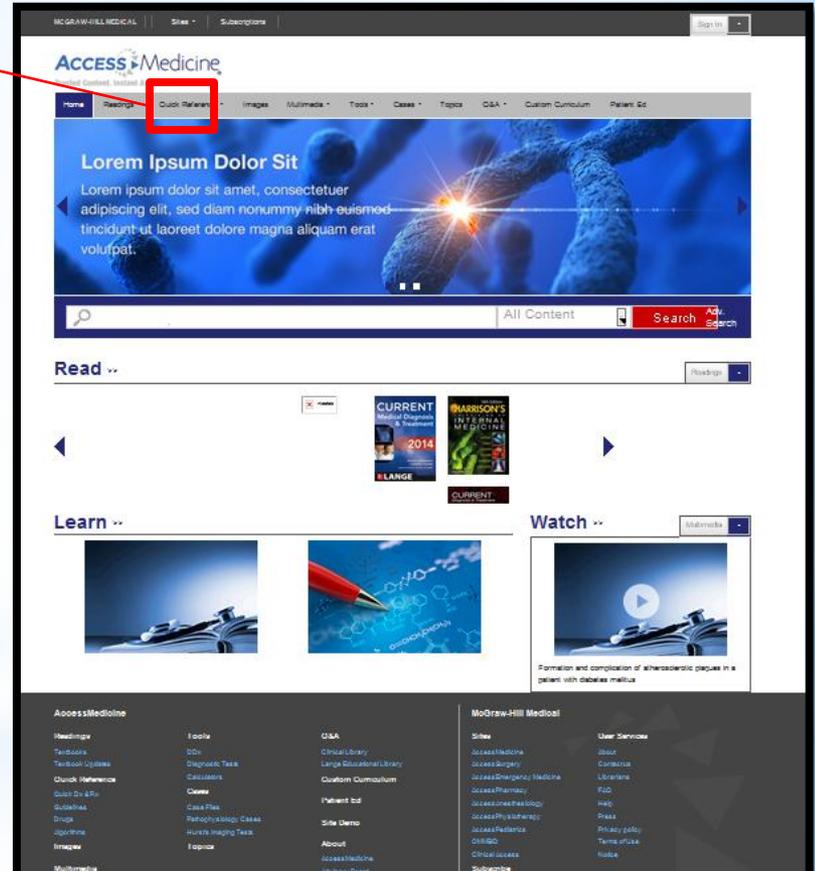

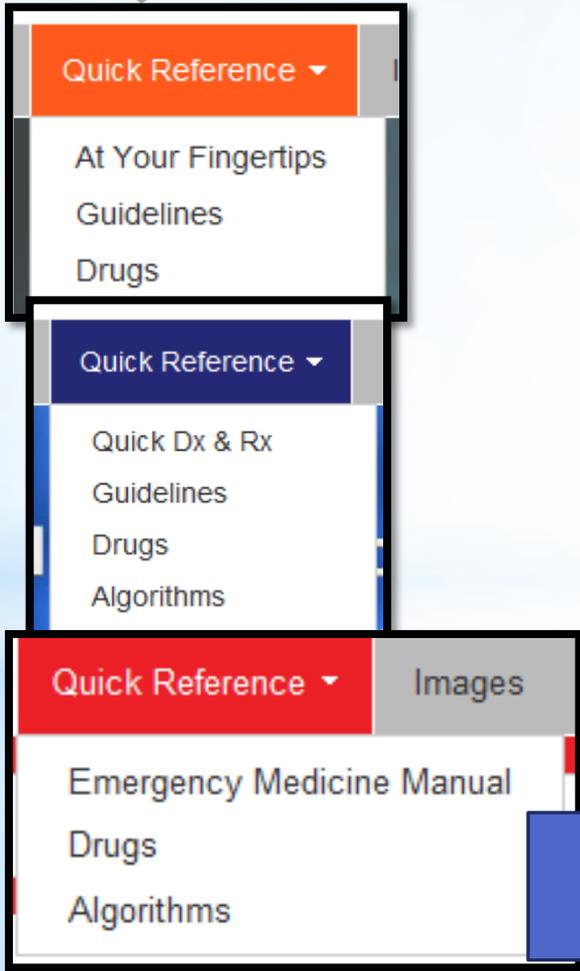

The screenshot shows the new website layout. The top navigation bar is more prominent, with 'Q&A' highlighted in orange. The search bar is larger and includes a dropdown menu for 'All Content'. The main content area is titled 'Q&A' and features a large red 'New Look!' banner. Below the banner, there are several featured Q&A content items, each with a book cover and a title: 'Pain Medicine Board Review' by Salahadin Abdi, Pradeep Chopra, and Howard Smith; 'Anesthesiology: Examination & Board Review, 6e' by Mark Dershwitz and Matthias Walz; 'Management of the Difficult and Failed Airway, 2e' by Orlando R. Hung and Michael F. Murphy; and 'Clinical Manual and Review of Transesophageal Echocardiography, 2e' by Joseph P. Mathew, Madhav Swaminathan, and Chakib M. Ayoub. On the right side, there are two 'Practice Test' sections: 'TEE Practice Tests' with 100 text- and image-based questions, and 'Practice Test 2' with 50 video-based questions. Each test section includes radio buttons for 'Take as a timed test' and 'Don't time me', and a 'Take Practice Test' button.
